EDUCATION

- Chandigarh University** Mohali, Punjab
 - Bachelor of Engineering in Computer Science and Engineering CGPA: 8.05* Aug 2022 – Jun 2026
- Guru Gobind Singh Public School** Bokaro, Jharkhand
 - Intermediate (CBSE) Percentage: 79.17%* Apr 2020 – Mar 2022

EXPERIENCE

- Evalueserve Pvt. Ltd.** Gurugram, India
 - Software Developer Intern* Feb 2026 – Jul 2026
 - Analyzed enterprise operational data stored in SQL Server to support business workflows and improve reporting accuracy by writing optimized SQL queries
 - Developed enterprise web modules supporting business workflows and collaborated with cross-functional teams to deliver reporting and operational features during Agile sprints
 - Extracted, validated, and managed business data using REST APIs and SQL queries to ensure accurate reporting for internal stakeholders

TECHNICAL SKILLS

- Data Analytics:** Power BI, Power Query, DAX, SQL, Microsoft Excel, Data Visualization
- Programming:** Python, C++, JavaScript
- Databases:** SQL Server, PostgreSQL, MySQL, MongoDB
- Analytics Concepts:** Data Analysis, Business Reporting, Dashboarding, KPI Analysis, Data Interpretation, Business Insights, Decision Support
- Tools:** Git, GitHub, Postman
- Development:** Angular, ASP.NET Core (.NET), REST APIs

PROJECTS

- Claim Management System** [GitHub] [Live Demo]
 - Tech Stack: Angular, ASP.NET Core (.NET), SQL Server, Entity Framework Core, JWT* Feb 2026 – Jul 2026
 - Built dashboards and reporting modules to visualize claim status, approval trends, and operational performance using SQL-backed data
 - Designed SQL queries to retrieve and analyze claim records for reporting and business insights
 - Developed role-based modules to streamline claim processing, approval tracking, and operational reporting
- Blinkit Sales Analytics Dashboard** [GitHub] [Live Dashboard]
 - Tech Stack: Power BI, Power Query, DAX, Microsoft Excel* Jul 2026 – Aug 2026
 - Developed an interactive Business Intelligence dashboard in Power BI to analyze Blinkit's grocery sales performance.
 - Used Microsoft Excel as the source dataset, cleaned and transformed raw data using Power Query, and created DAX measures for KPIs including Total Sales, Average Sales, Item Count, and Average Rating.
 - Designed interactive KPI dashboards with slicers and visualizations to analyze outlet performance, product categories, customer ratings, and sales trends, enabling data-driven business decision-making.
- ThinkStack – Distributed Multi-Model AI Platform** [GitHub] [Live Demo]
 - Tech Stack: React.js, Node.js, Express.js, PostgreSQL, OpenRouter, Vercel* Nov 2025 – Mar 2026
 - Designed backend services to manage structured application data and support reporting workflows using PostgreSQL
 - Developed backend APIs for data collection, storage, and reporting using Node.js and Express.js
 - Improved application reliability through debugging and data validation

ACHIEVEMENTS & LEADERSHIP

- Project Expo 2026 Finalist:** Recognized at university-level project exhibition for ThinkStack, a distributed multi-model AI platform focused on scalability and system performance
- Flipkart GRiD 7.0 Semi-finalist:** Advanced to semi-finals among 1,00,000+ participants in a national-level software engineering competition
- Problem Solving:** Solved 200+ Data Structures and Algorithms problems on coding platforms, strengthening problem-solving, debugging, and analytical skills.

CERTIFICATIONS

- SQL: A Practical Introduction for Querying Databases:** IBM (Coursera)
- Introduction to Databases:** (Coursera)
